About me

As a Frontend Developer, I specialize in creating dynamic and responsive user interfaces using modern web technologies. With hands-on experience in JavaScript, TypeScript, and React, I focus on creating interactive and efficient web applications. My familiarity with tools like Ant Design, SASS, and the Next.js framework enables me to build scalable and maintainable codebases. I am committed to continuous learning and improvement, with a keen interest in staying updated with the latest frontend trends and best practices. Passionate about clean code and user-centric design, I strive to enhance the user experience through innovative and accessible solutions.
